Nedland Stationary Compactors are built from prime high quality steel plate and structural steel channel and tubing. All hydraulic and electrical components are brand name, UL approved and of the highest quality with all moving parts having grease fittings. Nedland Stationary Compactors are built to provide durability, reliability with many years of maintenance free service.

Nedland Stationary Compactors are manufactured in sizes from .5 Cu Yds to 6 Cu yards. These compactors are backed by Nedland's more than 60 years of service, design and manufacturing experience.
